

Job Title: Software Developer

Job Summary

We are seeking a talented and motivated Software Developer to join our team. You will be responsible for building, testing, and maintaining functional, high-performance software applications that meet user requirements.

Key Responsibilities

- **Develop and Maintain Software:** Produce clean, efficient, and well-documented code based on specifications.
- **Testing and Debugging:** Perform system testing, debugging, and troubleshooting to ensure software quality and performance.
- **Collaboration:** Work with cross-functional teams to define, design, and ship new features.
- **Support and Deployment:** Assist in the deployment of applications to production environments and provide technical support.
- **Improvement:** Recommend and execute improvements to existing software to enhance performance and security.

Required Skills and Qualifications

- **Education:** Bachelor's degree in Computer Science, Software Engineering, or relevant experience.
- **Experience:** Proven experience as a Software Developer or similar role.
- **Technical Skills:** Proficiency in programming languages (e.g., Python, Java, JavaScript, C++) and frameworks.
- **Technical Understanding:** Solid understanding of software development life cycles (SDLC) and agile methodologies.
- **Problem-Solving:** Strong analytical and problem-solving skills, with high attention to detail.

Preferred Qualifications

- Experience with cloud services (AWS, Azure) or API integration.
- Experience with databases (SQL, NoSQL).
- Excellent communication skills and ability to work in a team-oriented environment
